**IMI DEFENDANTS' RESPONSE TO
PLAINTIFFS' FIRST SET OF INTERROGATORIES**

Pursuant to Federal Rule of Civil Procedure 33, defendant Irving Materials Inc. ("IMI") and individual defendants Fred R. "Pete" Irving, Price C. Irving, Daniel C. Butler and John A. Huggins (IMI and the four individual defendants shall be referred to collectively as the "IMI Defendants"), respond to Plaintiffs' First Set of Interrogatories to All Defendants ("Plaintiffs' First Interrogatories"), as follows:

General Objections

1. The IMI Defendants object to each and every of Plaintiffs' First Interrogatories to the extent that such interrogatories call for matters protected by attorney-client privilege, work product immunity or any other applicable privilege or immunity, including, without limitation, privileges, immunities or obligations of secrecy associated with the IMI Defendants' communications with federal or state law enforcement authorities and matters before the Grand Jury. In accordance with Fed.R.Civ.P. 26(b)(5), the IMI Defendants will provide upon request a privilege log or other description of documents or communications subject to privilege or immunity within a reasonable time. The IMI Defendants fully reserve and do not waive any

EXHIBIT A

applicable privileges and immunities and will act in accordance with all obligations of secrecy. This general objection is elaborated in specific objections to particular interrogatories below.

2. The IMI Defendants object that the totality of Plaintiffs' First Interrogatories are unduly burdensome and that such interrogatories, taken as a whole, impose burdens or expenses which outweigh their likely benefit and discovery should be limited accordingly pursuant to the principles of Fed.R.Civ.P. 26(b)(2). Specifically, though without limitation, Plaintiffs' First Interrogatories are overbroad and unduly burdensome to the extent that they seek answers beyond the temporal and geographic limitations imposed by the Court's August 18, 2006 Entry on [Plaintiffs'] Motion to Compel and [the IMI Defendants'] Motion for Protective Order [Docket No. 201]. The provision of information beyond the temporal and geographic scope defined by the August 18, 2006 Entry would impose an undue burden and Plaintiffs' First Interrogatories are overbroad to that extent.¹

3. The IMI Defendants object to Plaintiffs' First Interrogatories to the extent that such interrogatories call for matters which are neither relevant nor reasonably calculated to lead to the discovery of admissible evidence. First, the interrogatories call for irrelevant information to the extent that they exceed the temporal and geographic scope of discovery defined as relevant by the Court's August 18, 2006 Entry (*see* General Objection No. 2). Second, as more fully

¹ The August 18, 2006 Entry stated, in relevant part: "The Magistrate Judge agrees with the defendants that the time period sought by the plaintiffs is too broad, at least without a specific showing by the plaintiffs' experts that information from the additional years is relevant. However, it is only logical to expect that documents from a short time before and after the Class Period likely are relevant to what occurred during the Class Period, and therefore the Magistrate Judge will permit discovery from July 1, 1999, through May 31, 2005. As for the proper geographic scope, the Magistrate Judge finds that the plaintiffs have not demonstrated at this time that it is appropriate to expand discovery beyond the Central Indiana Area as defined in the Complaint." Entry, Docket No. 201, p. 2. While plaintiffs have sought leave to amend the Complaint to include Monroe County within the "Central Indiana Area", the parties are bound at present by the Entry's definition of the "Central Indiana Area" as the nine counties referenced in Plaintiffs' First Amended Complaint. Accordingly, the IMI Defendants' objections to Plaintiffs' First Interrogatories are based on that same definition, thus excluding Monroe County from the IMI Defendants' Answers. The IMI Defendants object that plaintiffs' unilateral definition of a "Central Indiana Area" as embracing nine (or ten) counties is arbitrary and without factual basis. Thus, the IMI Defendants' use of the term "Central Indiana Area" in responding to Plaintiffs' First Interrogatories does not constitute agreement with that definition for any purpose.

described in the specific objections below, plaintiffs' interrogatories relating to communications or meetings between or among the defendants and/or other manufacturers of ready-mixed concrete are neither relevant nor reasonably calculated to lead to the discovery of admissible evidence to the extent that any such meetings or communications do not reflect or embody a conspiratorial agreement or agreements in violation of Section 1 of the Sherman Act, 15 U.S.C. § 1, among the defendants. Accordingly, the IMI Defendants object to providing an account of any such communications or meetings beyond those reflecting consummated, unlawful agreements among the defendants in violation of Section 1.

4. The IMI Defendants object to Plaintiffs' First Interrogatories to the extent that the interrogatories purport to require disclosure of trade secrets or other confidential research, development or commercial information within the meaning of Fed.R.Civ.P. 26(c). Pursuant to the agreed Protective Order entered March 2, 2006, the IMI Defendants designate as confidential the specific matters set forth below in response to particular interrogatories.

5. The IMI Defendants object to each and every of Plaintiffs' First Interrogatories to the extent that answers would cause the IMI Defendants to violate any existing protective orders, confidentiality agreements or license agreements, whether express or implied as a matter of custom and practice in the industry, and whether entered by courts or administrative agencies or with third parties.

6. The IMI Defendants object to each and every of Plaintiffs' First Interrogatories to the extent that they call for information reflecting or relating to any settlement communications, discussions or negotiations, including, without limitation, communications with federal or state law enforcement authorities, in that such information is neither relevant nor reasonably calculated to lead to the discovery of admissible evidence under the Federal Rule of Evidence

408 and otherwise. Additionally, any communications with law enforcement authorities not reflected in published plea, amnesty or other agreements, or otherwise in the public domain, are subject to both statutory and common law privileges and obligations of secrecy. Included, without limitation, among such protected communications are matters occurring before the Grand Jury within the meaning of the Federal Rules of Criminal Procedure. Accordingly, such matters are not properly discoverable.

7. The IMI Defendants object to each and every of Plaintiffs' First Interrogatories to the extent that such interrogatories incorporate plaintiffs' purported "definitions" and "instructions" if and to the extent that such definitions and instructions purport to require the provision of information beyond that required by the Federal Rules of Civil Procedure and applicable case law. The IMI Defendants will respond to Plaintiffs' First Interrogatories in accordance with the Federal Rules of Civil Procedure, and not pursuant to plaintiffs' definitions and instructions. Without limiting the generality of the foregoing, further specific objections to plaintiffs' definitions and instructions are set forth below.

8. The IMI Defendants and their counsel continue diligently to pursue their investigation and analysis of the facts. Neither that investigation nor discovery in this case are complete. Therefore, plaintiffs' interrogatories are in some respects premature and these answers to interrogatories are being provided without prejudice to the IMI Defendants' rights to add to, modify or otherwise change or amend their responses at a later time, prior to trial. The IMI Defendants will supplement their answers to interrogatories in accordance with, and to the extent required by, the Federal Rules of Civil Procedure.

Specific Objections

Objections to Definitions and Instructions

Definitions

1. "Defendants" means Defendants in the above-captioned case, their predecessors, successors, subsidiaries, parents, branches, departments, divisions, or affiliates, including, without limitation, any organization or entity in which any Defendant has management or controlling interests, together with all present and former directors, officers, employees, agents, representatives or any persons acting or purporting to act on behalf of any Defendant.

RESPONSE:

The IMI Defendants incorporate by reference General Objections 1, 2, 3 and 7. The IMI Defendants specifically object to this definition to the extent that it refers to any person or entity other than Irving Materials, Inc. or the individual IMI Defendants named as defendants in Plaintiffs' First Amended Complaint. None of the other entities or organizations listed in this definition have entered into plea agreements with the Government, nor have plaintiffs named any such organization or entity as a defendant in this matter. Additionally, use of this definition would cause the IMI Defendants' provision of information to exceed the temporal and geographic scope of discovery defined as relevant by the Court's August 18, 2006 Entry (Docket No. 201). Accordingly, this definition is contrary to that Entry and calls for matters which are neither relevant nor reasonably calculated to lead to the discovery of admissible evidence to the extent that it refers to any person, entity or organization other than Irving Materials, Inc. or the individual IMI Defendants. The IMI Defendants additionally object to this definition to the extent that it purports to require the provision of any information beyond the possession, custody or control of the IMI Defendants. Specifically, though without limitation, the IMI Defendants may not control "predecessors", "successors", "any organization or entity in which any defendant

has management" interests or "present and former directors, officers, employees, agents, representatives or any persons acting or purporting to act on behalf of any defendant."

2. "You" or "your" means your company or your predecessors, successors, subsidiaries, parents, branches, departments, divisions, or affiliates, including, without limitation, any organization or entity in which you have management or controlling interests, together with all present and former directors, officers, employees agents, representatives or any persons acting or purporting to act on your behalf.

RESPONSE:

The IMI Defendants incorporate by reference General Objections 1, 2, 3 and 7. The IMI Defendants specifically object to this definition to the extent that it refers to any person or entity other than Irving Materials, Inc. or the individual IMI Defendants named as defendants in Plaintiffs' First Amended Complaint. None of the other entities or organizations listed in this definition have entered into plea agreements with the Government, nor have plaintiffs named any such organization or entity as a defendant in this matter. Additionally, use of this definition would cause the IMI Defendants' provision of information to exceed the temporal and geographic scope of discovery defined as relevant by the Court's August 18, 2006 Entry (Docket No. 201). Accordingly, this definition is contrary to that Entry and calls for matters which are neither relevant nor reasonably calculated to lead to the discovery of admissible evidence to the extent that it refers to any person, entity or organization other than Irving Materials, Inc. or the individual IMI Defendants. The IMI Defendants additionally object to this definition to the extent that it purports to require the provision of any information beyond the possession, custody or control of the IMI Defendants. Specifically, though without limitation, the IMI Defendants may not control "predecessors", "successors", "any organization or entity in which any defendant

has management" interests or "present and former directors, officers, employees, agents, representatives or any persons acting or purporting to act on behalf of any defendant."

3. "Person" means, without limitation, any natural person, corporation, partnership, proprietorship, joint venture, association, governmental entity (including, without limitation, any governmental agency or political sub-division of any government), any group, or any other form of public or private business or legal entity.

RESPONSE:

The IMI Defendants incorporate by reference General Objections 1, 2, 3, 4, 5, 6 and 7. The IMI Defendants specifically object to this definition to the extent that it purports to require the provision of information beyond that within the IMI Defendants' possession, custody or control. Moreover, to the extent that this definition purports to include governmental entities among relevant "persons" with whom communications have occurred, certain such communications are subject to applicable privileges, immunities and obligations of secrecy as detailed in response to certain specific interrogatories below.

4. "Communication" means, without limitation, oral or written communication of all kinds, such as correspondence, exchanges of written or recorded information, face to face meetings, electronic, facsimile or telephone. The phrase "communication between" is defined to include instances where one person addresses another person even if the other person does not respond.

RESPONSE:

The IMI Defendants incorporate by reference General Objections 1, 2, 3, 4, 5, 6, 7 and 8. The four individual IMI defendants, Fred R. Irving, Daniel Butler, Price Irving and John Huggins, specifically object to this definition, and to the interrogatories in which it is

incorporated, to the extent that it would require identification or production of documents, if any, protected from production by the Fifth Amendment's privilege against self-incrimination, U.S. Const., Amend. V. *See United States v. Doe*, 465 U.S. 605, 104 S.Ct. 1237 (1984). The IMI Defendants specifically object that to the extent that this definition refers to correspondence, exchanges of written or recorded information or electronic or facsimile transmissions, any such written or documented communications are more appropriately obtained by requests for production under Federal Rule of Civil Procedure 34 (which plaintiffs have served), rather than by interrogatory. To this extent, Plaintiffs' First Interrogatories are overbroad and unduly burdensome.

The IMI Defendants also object to the inclusion of "instances where one person addresses another person even if the other person does not respond" as overbroad, unduly burdensome and irrelevant. Additionally, insofar as this definition relates to interrogatories concerning agreements in restraint of trade, the IMI Defendants deny, as a matter of law, that any such agreement can be inferred from silence alone. Accordingly, this definition also calls for matters which are neither relevant nor reasonably calculated to lead to the discovery of admissible evidence to that extent.

5. "Meeting" means, without limitation, any assembly, convocation, encounter, or contemporaneous presence of two or more persons for any purpose, regardless if planned, arranged or scheduled.

RESPONSE:

The IMI Defendants incorporate by reference General Objections 1, 2, 3, 4, 5, 6, 7 and 8. The IM Defendants specifically object that this definition is overbroad, unduly burdensome and, as it relates to any meetings between or among the defendants, calls for the provision of

information which is neither relevant nor reasonably calculated to lead to the discovery of admissible evidence. The sole relevant meetings are those where conspiratorial agreements in violation of the Sherman Act were concluded among the defendants.

6. "Employee" means, without limitation, current and former officers, directors, agents, representatives, executives, managers, sales personnel, secretaries, clerical staff or any other person employed for any reason.

RESPONSE:

The IMI Defendants incorporate by reference General Objections 1, 3 and 7. The IMI Defendants specifically object to the extent that this definition calls for the provision of information beyond the possession, custody or control of the IMI Defendants, or any of them.

7. "Document" has the same full meaning as construed by the Federal Rules of Civil Procedure.

RESPONSE:

The IMI Defendants incorporate by reference General Objection 1. The four individual IMI defendants, Fred R. Irving, Daniel Butler, Price Irving and John Huggins, specifically object to this definition, and to the interrogatories in which it is incorporated, to the extent that identification or production of responsive documents, if any, is protected by the Fifth Amendment's privilege against self-incrimination, U.S. Const., Amend. V. *See United States v. Doe*, 465 U.S. 605, 104 S.Ct. 1237 (1984).

8. "Relate to" or "Relating to" means, without limitation, the concepts: refer to, discuss, describe, reflect, deal with, pertain to, analyze, evaluate, estimate, constitute, study, survey, project, assess, record, summarize, criticize, report, comment, or otherwise involve, in whole or in part.

RESPONSE:

The IMI Defendants incorporate by reference General Objection 7. The IMI Defendants specifically object to this definition as creating vague and ambiguous interrogatories and as using the referenced terms in a manner contrary to their plain meaning. The effect, in the context of particular interrogatories, is to create vague, open-ended inquiries and to improperly attempt to shift to the IMI Defendants the burden of identifying what information is sought by particular interrogatories. Accordingly, the IMI Defendants will respond in accordance with the plain meaning of the terms "relate to" or "relating to", and not in accordance with plaintiffs' definition.

9. "Or" is used in its inclusive sense and shall be construed so as to require the broadest possible response. If, for example, a request calls for information about "A" or "B," you should produce all information about A, all information about B and all information about A and B. (In other words, "or" should be read as "and/or.")

RESPONSE:

The IMI Defendants incorporate by reference General Objection 7. The IMI Defendants specifically object to this definition as creating vague and ambiguous interrogatories and as using the referenced term in a manner contrary to its plain meaning. The effect is to create vague, open-ended interrogatories and improperly to attempt to shift the IMI Defendants the burden of specifying what information is sought by a specific interrogatory. Accordingly, the IMI Defendants will respond in accordance with the plain meaning of the word "or", and not in accordance with plaintiffs' definition.

10. "Identify" or "Identification," when used in reference to a firm, partnership, corporation, proprietorship, association or other entity person (as previously defined) means to

state that person's full name, address and telephone number (designate as current or last known), the legal form of the entity and the current officers, directors or chief executive.

RESPONSE:

The IMI Defendants incorporate by reference General Objections 1, 2, 3, 6, 7 and 8. The IMI Defendants specifically object that this definition's request for contact information ("address and telephone number") is overbroad and irrelevant. The referenced persons or entities should be contacted through appropriate counsel. The IMI Defendants also object that the terms "current officers, directors or chief executive" of the referenced persons or entities may include matters which are neither relevant nor reasonably calculated to lead to the discovery of admissible evidence when used in connection with specific interrogatories, as specifically identified below.

11. "Identify" or "Identification," when used in reference to a document, means to state the type of document (e.g., letter, memorandum, telegram) or some other means of identifying it, its date, author, addressees and custodian. If any such document was, but is no longer, in your possession or subject to your control, state its disposition.

RESPONSE:

The IMI Defendants incorporate by reference General Objections 1, 2, 3, 6, 7 and 8. The IMI defendants also incorporate by reference their specific objections to plaintiffs' definition of "document" as described above. The IMI Defendants specifically object that to the extent the identification of documents is relevant, any such relevant, non-privileged documents will be produced either in response to Plaintiffs' requests for production of documents or in response to Plaintiffs' First Interrogatories, pursuant to Federal Rule of Civil Procedure 33(d). In either instance, however, the identity of the document is plain from the face of the document itself, and

this definition is thus superfluous and unduly burdensome. The IMI Defendants additionally object to the last sentence of this definition to the extent that it calls for the provision of information beyond the possession, custody or control of the IMI Defendants.

12. "Identify" or "Identification," when used in reference to an individual person, means to state that person's full legal name, residence address and telephone number (designate as current or last known), position and business affiliation and business address and telephone number (designate as current or last known).

RESPONSE:

The IMI Defendants incorporate by reference General Objections 1, 2, 3, 6, 7 and 8. The IMI Defendants specifically object that this definition's request for contact information ("residence address and telephone number (designate as current or last known). . . . and business address and telephone number (designate as current or last known))", is overbroad and irrelevant. The referenced individuals should be contacted through appropriate counsel.

13. "Identify" or "Identification," when used in reference to a communication or meeting, means to identify all persons involved in such communication or meeting, the date of such communication, all documents related to such communication or meeting (including, without limitation, all documents recording or summarizing such communication or meeting) and any actions taken by you as a result of such communication or meeting.

RESPONSE:

The IMI Defendants incorporate by reference General Objections 1 through 8, inclusive. The IMI Defendants also incorporate by reference their specific objections to plaintiffs' definitions of "document", "communication" and "meeting," as described above. Insofar as the definition calls for "all documents related to such communication or meeting (including, without

limitation, all documents recording or summarizing such communication or meeting)", any such relevant, non-privileged documents will be produced in response to plaintiffs' requests for production or in response to Plaintiffs' First Interrogatories under Fed.R.Civ.P. 33(d). Accordingly, this definition is superfluous and unduly burdensome to that extent.

14. "Date" means the exact day, month and year, if ascertainable, or the best available approximation, including any relationship to other known events (designate whether exact or approximate).

RESPONSE:

The IMI Defendants incorporate by reference General Objection 7.

15. "Ready-Mixed Concrete" means a product comprised of cement, sand, gravel, water, and occasionally additional additives.

RESPONSE:

The IMI Defendants deny that this is an adequate, complete or accurate definition of ready-mixed concrete. "Ready-mixed concrete" is a colloquial term that embraces a wide variety of products, applications and services that cannot be adequately or accurately described as a single product. The IMI Defendants will answer plaintiffs' interrogatories in accordance with their understanding of the diversity of products, applications and services embraced by the term "ready-mixed concrete".

Instructions

1. Unless otherwise noted, these interrogatories require responses for the time period January 1, 1995 to the present.

RESPONSE:

The IMI Defendants incorporate by reference General Objections 2 and 3. The IMI Defendants specifically object to each and every of plaintiffs' interrogatories as irrelevant,

overbroad and unduly burdensome to the extent that they purport to require the provision of information beyond the temporal or geographic scope of discovery defined as relevant by the Court's August 18, 2006 Entry (Docket No. 201).

2. If you refuse to respond to any interrogatories based on a claim of privilege, pursuant to Federal Rule of Civil Procedure 26(b)(5), provide a statement of the claim of privilege and all facts relied on in support of that claim, including, the parties involved, the dates involved, the relevant subject matter of the privileged material, any documents supporting the privileged information, specifying the dates, authors, recipients, title and subject matter, and present location of any documents involved. In the case of attorney work product privilege, also identify the litigation in connection with which the work product was prepared.

RESPONSE:

The IMI Defendants incorporate by reference General Objections 1, 6 and 7. The IMI Defendants will support their privilege claims as required by the Federal Rules, applicable case law and principles set forth in the Court's January 17, 2007 Entry on [the IMI Defendants' First] Motion to Compel (Docket No. 254), p. 9, and not in accordance with plaintiffs' instruction.

3. If you answer any interrogatory by reference to business records pursuant to Federal Rule of Civil Procedure 33(d) and as that term is defined under the Federal Rules of Evidence, identify such records by bates number and the name of the employee certifying the documents as business records for purposes of answering the interrogatory.

RESPONSE:

The IMI Defendants incorporate by reference General Objections 1 and 7. The IMI Defendants will identify any documents produced in response to Plaintiffs' First Interrogatories with the degree of specificity required by Fed.R.Civ.P. 33(d), and not in accordance with

plaintiffs' instruction. Specifically, there is no requirement in the Rule that the documents be identified "by bates number and the name of the employee certifying the documents as business records for purposes of answering the interrogatory."

Interrogatories

INTERROGATORY NO. 1: For each of your employees who has or had any responsibility for recommending, reviewing, setting or approving prices, price increase announcements, territories, markets, bids or quotes for the sale of Ready-Mixed Concrete, identify:

- (a) the full name and last known business and home address;
- (b) date of birth and social security number;
- (c) title or position and period of service in each such position;
- (d) immediate supervisor in each position;
- (e) business and home telephone numbers of each voice, facsimile or cellular telephone assigned to or used by such person and the period during which such numbers were assigned to or used by that person; and
- (f) business and home electronic mail identifiers and the period during which such identifiers were assigned to and used by that person.

ANSWER: The IMI Defendants incorporate by reference General Objections 1 through 8, inclusive. The IMI Defendants specifically object to providing the contact information or date of birth and social security number requested by this interrogatory because such information is neither relevant nor reasonably calculated to lead to the discovery of admissible evidence. To the extent, if any, that the referenced employees have discoverable

information they should be contacted through counsel. Subject to and waiving the foregoing objections, IMI² incorporates by reference Exhibit 1 hereto.

INTERROGATORY NO. 2: For each of your employees who served as a secretary, personal or administrative assistant or who performed secretarial, personal or administrative assistant services for each person identified in response to Interrogatory No. 1, identify:

- (a) the full name and last known business and home address;
- (b) date of birth and social security number;
- (c) title or position and period of service in each such position;
- (d) person for whom such services were performed and the immediate supervisor if different;
- (e) business and home telephone numbers of each voice, facsimile or cellular telephone assigned to or used by such person and the period during which such numbers were assigned to or used by that person; and
- (f) business and home electronic mail identifiers and the period during which such identifiers were assigned to and used by that person.

ANSWER: The IMI Defendants incorporate by reference General Objections 1 through 8, inclusive. The IMI Defendants specifically object to providing the contact information or date of birth and social security number requested by this interrogatory because such information is neither relevant nor reasonably calculated to lead to the discovery of admissible evidence. To the extent, if any, that the referenced employees have discoverable

² This interrogatory appears to be directed solely toward the corporate defendant, IMI, and not the four individual IMI defendants (*i.e.*, "your employees"). Accordingly, the information in Exhibit 1 hereto is provided solely by IMI.

information they should be contacted through counsel. Subject to and waiving the foregoing objections, IMI³ incorporates by reference Exhibit 2 hereto.

INTERROGATORY NO. 3: Identify each employee who testified for, gave an oral statement to, or produced any documents, written statements or data to any employee, agent, agency, department, or committee of the United States, any State, or the European Commission, including any testimony before a grand jury, relating to Ready-Mixed Concrete and as to each person state:

- (a) the date testimony or other oral statement was given or documents produced;
- (b) the employee, agent, agency, department or committee receiving the testimony, oral statement or documents; and
- (c) a description of the testimony, oral statement, or documents.

ANSWER: The IMI Defendants incorporate by reference General Objections 1 through 8, inclusive. The IMI Defendants specifically object that the sole relevant testimony or statements are any given in connection with the U.S. Department of Justice's investigation of ready-mixed concrete producers in Indianapolis. Moreover, any such statements or testimony given in the context of the government's criminal investigation are subject to common law privilege and/or subject to obligations of secrecy under the Federal Rules of Criminal Procedure and applicable case law. Accordingly, the IMI Defendants object to this interrogatory. Similarly, with respect to any documents provided by the IMI Defendants to the government under search warrants, grand jury subpoenas or otherwise, case law establishes that production of

³ This interrogatory appears to be directed solely toward the corporate defendant, IMI, and not the four individual IMI defendants (*i.e.*, "your employees"). Accordingly, the information in Exhibit 2 hereto is provided solely by IMI.

the documents, segregated and denominated as such, is objectionable and the IMI Defendants object to the interrogatory, to that extent, on this basis as well.

This interrogatory appears to be directed solely to the corporate defendant, IMI, and not to the four individual IMI defendants ("each employee"), and IMI has responded accordingly. However, to the extent, if any, that the interrogatory is intended to elicit a response from the four individual IMI defendants, Fred R. Irving, Daniel Butler, Price Irving and John Huggins, these individual defendants respectfully decline to answer this interrogatory on the basis of the Fifth Amendment's privilege against self-incrimination. U.S. Const., Amend. V. Under principles stated by the Supreme Court in *United States v. Kordel*, 397 U.S. 1, 90 S.Ct. 763 (1970), and subject to and without the foregoing general and specific objections, IMI objects that any response to this interrogatory on behalf of the company should be deferred until such time as the individual IMI defendants are no longer in potential criminal jeopardy under State law or otherwise.

INTERROGATORY NO. 4:

Identify each employee who served as your designated representative in any trade associations relating to Ready-Mixed Concrete and state with respect to each:

- (a) the trade associations to which each person served as your designated representative;
- (b) the years during which each person served as your designated representative in each trade association;
- (c) all offices, chairs or committee positions held in each of the trade associations; and

(d) the years during which those offices, chairs or committee positions were held.

To the extent you did not have the same designated representative(s) for a given time period, please explain how you determined which employee or employees would represent you at each trade association meeting and how that practice differed, if at all, between trade associations.

ANSWER: The IMI Defendants incorporate by reference General Objections 1 through 8, inclusive. IMI⁴ specifically objects that it did not have any "designated representative" to the responsive trade association, the Indiana Ready-Mixed Concrete Association. Subject to and without waiving these objections, IMI incorporates by reference Exhibit 3 hereto.

INTERROGATORY NO. 5: Identify the address, main telephone number and person in charge of each office, plant, operating unit, warehouse or other facility that you use or used in connection with your Ready Mixed Concrete business, the period it was used and the nature of the use at those premises.

ANSWER: The IMI Defendants incorporate by reference General Objections 1 through 8, inclusive. The IMI Defendants specifically object to providing the "main telephone number" for the referenced facilities in that any discoverable information with respect to such facilities should be obtained through counsel. The IMI Defendants specifically object to the terms "the nature of the use at those premises" as vague and ambiguous. Subject to and without waiving these objections, IMI⁵ incorporates by reference Exhibit 4 hereto.

⁴ This interrogatory appears to be directed solely to the corporate defendant, IMI, and not to the four individual IMI defendants ("identify each employee who served as your designated representative"). Accordingly, this interrogatory is answered solely by IMI.

⁵ This interrogatory appears to be directed solely toward the corporate defendant, IMI, and not toward the four individual IMI defendants ("identify the address . . . of each office . . . that you use or used"). Accordingly, the interrogatory is answered solely by IMI.

INTERROGATORY NO. 6: Identify any and all classes, types or categories of Ready-Mixed Concrete (including the trade names, brand names or trademarks) produced, marketed, distributed or sold by you.

ANSWER: The IMI Defendants incorporate by reference General Objections 1 through 8, inclusive. Subject to and without waiving these objections, the IMI Defendants incorporate by reference Exhibit 5 hereto. Exhibit 5 is hereby designated as Current Confidential Information under the agreed Protective Order entered March 2, 2006.

INTERROGATORY NO. 7: Identify any outside or independent consultants you hired to study or evaluate Ready Mixed Concrete or the Ready-Mixed Concrete industry, including a description of the study or evaluation and the time frame the study or evaluation was conducted.

ANSWER: The IMI Defendants incorporate by reference General Objections 1 through 8, inclusive. The IMI Defendants specifically object to the terms "study or evaluate ready-mixed concrete or the ready-mixed concrete industry" as vague, overbroad and neither relevant nor reasonably calculated to lead to the discovery of admissible evidence. Specifically, the interrogatory is not limited by subject matter and could therefore relate to consultations having nothing to do with the claims or defenses in this litigation. Subject to and without waiving such objections, IMI⁶ states: Aside from quality control experts that may be periodically hired by IMI to conduct independent physical testing of specific batches of ready-mixed concrete, IMI has not hired any consultants to study or evaluate ready-mixed concrete or the ready-mixed concrete industry.

⁶ This interrogatory appears to be directed solely toward the corporate defendant, IMI, and not toward the four individual IMI defendants ("identify any outside or independent consultants you hired"). Accordingly, the interrogatory is answered solely by IMI.

INTERROGATORY NO. 8: Identify any fines, plea agreements or other agreements you, or any of your employees, have with any governmental agency, committee or department of the United States, any state, the European Commission, or any foreign governmental body relating to Ready-Mixed Concrete.

ANSWER: The IMI Defendants incorporate by reference General Objections 1 through 8, inclusive. The IMI Defendants specifically object to this interrogatory to the extent it goes beyond plea agreements entered into by the IMI Defendants with the United States Department of Justice, Antitrust Division, with respect to the ready-mixed concrete industry in Indianapolis, Indiana. Any other responsive matters are neither relevant nor reasonably calculated to lead to the discovery of admissible evidence.

Subject to and without waiving the foregoing general and specific objections, the four individual IMI defendants, Fred R. Irving, Daniel Butler, Price Irving and John Huggins, respectfully decline to answer this interrogatory on the basis of the Fifth Amendment's privilege against self-incrimination, U.S. Const., Amend. V. See *United States v. Doe*, 465 U.S. 605, 104 S.Ct. 1237 (1984). Under principles stated by the Supreme Court in *United States v. Kordel*, 397 U.S. 1, 90 S.Ct. 763 (1970), and subject to and without waiving the foregoing general and specific objections, IMI objects that any response to this interrogatory on behalf of the company should be deferred until such time as the individual IMI defendants are no longer in potential criminal jeopardy under State law or otherwise.

INTERROGATORY NO. 9: Identify all joint ventures or other cooperative business relationships between you and any other defendant or any other manufacturer of Ready-Mixed Concrete.

ANSWER: The IMI Defendants incorporate by reference General Objections 1 through 8, inclusive. The IMI Defendants specifically object to the terms "other cooperative business relationships" as vague, ambiguous and overbroad. Subject to and without waiving these objections, IMI⁷ states: At one time, IMI was a co-owner with Hughey Inc., d/b/a Carmel Concrete, and several other entities, of Advance Mixer, Inc., a manufacturer of delivery trucks. This arrangement ended in late July, 1999, with the sale of Advance Mixer, Inc.

INTERROGATORY NO. 10: Identify each actual or proposed understanding or agreement between any manufacturers of Ready-Mixed Concrete relating to prices, pricing, production or inventory levels of Ready Mixed Concrete and state as to each such actual or proposed understanding or agreement:

- (a) the identity of the participants and all persons with knowledge thereof;
- (b) when such understanding or agreement was entered into;
- (c) where such understanding or agreement was entered into;
- (d) the terms of such understanding or agreement; and
- (e) when, how and which of your officers, directors or employees discovered the existence of such understanding or agreement.

ANSWER: The IMI Defendants incorporate by reference General Objections 1 through 8, inclusive. The IMI Defendants specifically object to the extent that this interrogatory seeks information with respect to "proposed" or unconsummated understandings or agreements, or to the extent that it refers to any meetings or communications other than any such meetings or communications as reflect or embody agreements in violation of Section 1 of the Sherman Act, 15 U.S.C. § 1. To the extent that any responsive meetings or communications do not reflect or

⁷ This interrogatory appears to be directed solely toward the corporate defendant, IMI, and not toward the four individual IMI defendants ("identify all joint ventures . . . between you and any other defendant"). Accordingly, this interrogatory is answered solely by IMI.

embody an agreement among the defendants in violation of Section 1, they are neither relevant nor reasonably calculated to lead to the admissible evidence. Additionally, provision of any such information beyond concluded agreements in violation of Section 1 among the defendants would impose an undue burden on defendants in relation to the factors made relevant by Fed.R.Civ.P. 26(b)(2)(C)(iii). The IMI Defendants further object that is interrogatory imposes an undue burden because certain responsive information is more appropriately obtained by deposition.

The IMI Defendants specifically object to this interrogatory to the extent that providing a full answer would compromise the attorney-client privilege, work product or trial preparation immunity and/or common law privileges or statutory obligations of secrecy associated with the IMI defendants' cooperation with the government's criminal investigation of the ready-mixed concrete industry. Without limiting the generality of the foregoing, the IMI defendants state that communications made to government representatives, or to the grand jury in connection with the government's criminal investigation of the ready-mixed concrete industry, are subject to privilege and to secrecy obligations imposed with respect to matters occurring before the grand jury under the Federal Rules of Civil Procedure. Accordingly, IMI Defendants specifically object to the provision of any information based on such sources in response to this interrogatory.

The individual IMI Defendants, Fred R. "Pete" Irving, Daniel Butler, Price Irving and John Huggins, subject to and without waiving the foregoing objections, respectfully decline to answer this interrogatory on the basis of the Fifth Amendment's privilege against self-incrimination, U.S. Const., Amend. V. Under principles stated by the Supreme Court in *United States v. Kordel*, 397 U.S. 1, 90 S.Ct. 763 (1970), and subject to and without waiving the foregoing general and specific objections, IMI objects that any response to this interrogatory on

behalf of the company should be deferred until such time as the individual IMI defendants are no longer in potential criminal jeopardy under State law or otherwise.

INTERROGATORY NO. 11:

Identify and describe any meetings or communications between you and any employee or any other defendant or manufacturer of Ready-Mixed Concrete including those relating to price, pricing, price increase announcements, terms or conditions of sales, margins or market share, discounts, production levels, inventory, customers, auctions, reverse auctions, bidding events, or sales, and for each such meeting or communications:

- (a) provide the date and location of the meeting or communication;
- (b) identify the person(s) who initiated, called, organized, attended or participated in the meeting or communication; describe the subject matter discussed and any information you provided or received;
- (c) describe every action taken by you as a result of the meeting or communication; and
- (d) identify all persons with knowledge relating to the meeting or communication.

ANSWER: The IMI Defendants incorporate by reference General Objections 1 through 8, inclusive. The IMI Defendants specifically object to the extent that this interrogatory seeks information with respect to "proposed" or unconsummated understandings or agreements, or to the extent that it refers to any meetings or communications other than any such meetings or communications as reflect or embody agreements in violation of Section 1 of the Sherman Act, 15 U.S.C. § 1. To the extent that any responsive meetings or communications do not reflect or embody an agreement among the defendants in violation of Section 1, they are neither relevant

nor reasonably calculated to lead to the admissible evidence. Additionally, provision of any such information beyond concluded agreements in violation of Section 1 among the defendants would impose an undue burden on defendants in relation to the factors made relevant by Fed.R.Civ.P. 26(b)(2)(C)(iii). The IMI Defendants further object that this interrogatory imposes an undue burden because certain responsive information is more appropriately obtained by deposition.

The IMI Defendants specifically object to this interrogatory to the extent that providing a full answer would compromise the attorney-client privilege, work product or trial preparation immunity and/or common law privileges or statutory obligations of secrecy associated with the IMI defendants' cooperation with the government's criminal investigation of the ready-mixed concrete industry. Without limiting the generality of the foregoing, the IMI defendants state that communications made to government representatives, or to the grand jury in connection with the government's criminal investigation of the ready-mixed concrete industry, are subject to privilege and to secrecy obligations imposed with respect to matters occurring before the grand jury under the Federal Rules of Civil Procedure. Accordingly, the IMI Defendants specifically object to the provision of any information based on such sources in response to this interrogatory.

The individual IMI Defendants, Fred R. "Pete" Irving, Daniel Butler, Price Irving and John Huggins, subject to and without waiving the foregoing objections, respectfully decline to answer this interrogatory on the basis of the Fifth Amendment's privilege against self-incrimination, U.S. Const., Amend. V. Under principles stated by the Supreme Court in *United States v. Kordel*, 397 U.S. 1, 90 S.Ct. 763 (1970), and subject to and without waiving the foregoing general and specific objections, IMI objects that any response to this interrogatory on

behalf of the company should be deferred until such time as the individual IMI defendants are no longer in potential criminal jeopardy under State law or otherwise.

INTERROGATORY NO. 12: Identify the source, by name and by bates number, of each document produced to plaintiffs in this litigation.

ANSWER: The IMI Defendants incorporate by reference General Objections 1 through 8, inclusive. Pursuant to Federal Rule of Civil Procedure 33(d), the IMI Defendants state that they are producing documents in response to plaintiffs' requests for production of documents, which include any file jackets, labels or other organizational designations associated with such documents as kept in the ordinary course of business. Beyond this, the IMI Defendants specifically object that this interrogatory is unduly burdensome and overbroad in relation to the factors made relevant by Fed. R. Civ. P. 26(b)(2)(C)(iii).
